During the year of 1954 the trustees and librarian endeavored to make the library a center of varied interest.

To be sure the main purpose is to supply the community with as many worth while books as is financially possible. However, as we are so fortunate as to have a very attractive library, it seems that it could be used as a social and cultural center as well.

With that idea in mind, several art exhibitions were held. Oils, water colors and pastels were shown by Mr. H. Burr Eldridge and Dr. Alton Skelton of Winchendon, Mr. Phillip Thayer of Athol, Mrs. Marshall Danforth, and Mr. Don Bailey of Rindge.

Much interest waa shown and the attendance was most gratifying.

During book week in November, Mr. and Mrs. R. R. Smith, Publishers, loaned an attractive collection of their books. This too proved of interest to many. At the same time the

children arranged a display of shells and minerals in the childrens room. It is hoped that there may be more of these occasions in the future.

Again the bookmobile has proved to be of value. Four hundred and ninety-five books were borrowed from it during the year. Many of these were for the younger readers. A generous gift from the Rindge P. T. A. for the Juvenile department, made it possible to add some valuable books to our permanent collection.

Friend of the library have contributed to it most generously. Magazines, books and money have been donated by the following: Prof. Douglas Adams, Mrs. Arthur Allen, Mrs. Edward Brummer, Mrs. Francis Campbell, Mrs. Gray Cunningham, Mrs. Wallace Coates Jr., Mr. and Mrs. George Coppers, Mrs. George Duncan, Miss Eula Ferguson, Mrs. H. E. Gilbert, Mr. Raymond Ford, Mrs. Dora Harris, Mrs. Fred Howard, Mrs. Leo MacInnes, Miss Alice Morgan, Miss Blanche Mosher, Mr. and Mrs. George Oliva, Mrs. Ralph Pangborn, Miss Marcia Richardson, Mr. and Mrs. Richard R. Smith, Mr. Harry Sherwin, Mrs. Everad Upjohn, Mr. Russel White and Mrs. Robert Whitney.

Donations to the childrens department were made by Miss Florence French, Miss Betsey Pangborn and the Misses Vesla and Annette Peabody.

I gratefully acknowledge the assistance of the library trustees and the helpfulness of Mr. Crowell.

Respectfully submitted,

CARRIE S. GRAY

Librarian.

				Total Enrollment		101

The regular teaching staff remained pretty much the same this past year with the exception of Mrs. Jean Deschenes, principal and teacher of Grades 5 & 6. She resigned in August. She was replaced by Mr. Paul V. Clark, who resigned in October. Mr. Clark was replaced by the present principal, Mrs. Helen G. Jaques, of Rindge. Mrs. Jaques is well known in the community and is a well experienced teacher having taught in the schools of Wilmington, Vermont and Mendon, Massachusetts, where she was also principal. Mr. Filbin resigned in June to accept the newly created position of Helping Teacher for the Supervisory Union. He was replaced by Mr. Donald G. Bostrom of Quincy, Massachusetts, as Art Supervisor.

B. PROGRAMS AND METHODS

In grades one and two during the first part of the year the chief aim is to stimulate good attitudes, self direction and critical thinking. Mrs. Noyes works with the children with this in mind and it is interesting to see what a change occurs in the first few months of school.

The new "Growth With Arithmetic" books which were initiated this year have been a big help in the children's progress in arithmetic. In reading, the revised Scott Foresman series has helped with reading instruction.

Mrs. Noyes reports: "'We have also worked on good social habits including how to be a good host or hostess in the lunch room, in the classroom and at home."

Miss Brown in grades two and three reports: "We have used many concrete objects in teaching arithmetic such as a yard stick, foot ruler, calendar, pint and quart vessels, toy money, and blocks in order to develop a sound concept of all our number work."

The moving picture projector has been a great help in that it has been possible to supplement science, social studies and health work by showing several sound films.

Work has been done in music appreciation and interpretation and the piano has helped greatly in this work.

In grades four and five Mr. Copp reports regular use of all the equipment which has been provided for the school. He says, "I have used the duplicating machine and typewriter to set up examinations."

"The moving picture projector and film strip projector have been an enlightening supplement to the children's studies."

Mrs. Jaques, in grades five and six, has been doing special work in reading. She reports of the special group in reading, "They are enthusiastic about the class and a noticeable improvement in reading has already taken place."

She continues, "We have been working to develop intellectual curiosity which seems lacking in this day of television."

At Christmas the whole school worked on the operetta "Hansel & Gretel." While this gave a few the opportunity to act, it also gave all the children training in singing as a chorus group.

PART III. SCHOOL PLANT

A. PLAYGROUND

In keeping with plans for the improvement of the playground area, stones have been picked up, logs have been carried off, trees have been trimmed and some of the areas filled in. At the side of the building, areas have been marked off for paddle tennis, volley ball and deck tennis. Horseshoe boxes have been installed and a square has been marked off for boxing and volley ball. Poles have been provided for pole vaulting and the P. T. A. has purchased and installed a sand box for the smaller children.

A backstop has also been provided.

PART VI. AUXILIARY ACTIVITIES AND SPECIAL REPORTS

A. HEALTH

The objectives of the School Health Service are to keep the children well and to correct any condition which might prevent their best work in school.

Thomas H. Eckfeldt, M. D. has been appointed by the School Board as school physician.

Dr. Eckfeldt examines the odd numbered grades every year so that every child will receive an examination every other year. He also examines other pupils as the need arises.

The school doctor's examination consists of a check up of the chest including heart and lungs. He checks nose, ears, and eyes and gives special attention to the condition of throat and teeth. He notes general appearance, such as nutrition, skin and color and skin conditions, as well as posture. Each boy is checked for possible hernia or genital abnormalities.

The school doctor does not treat or prescribe. If any condition is found to need attention, parents are notified to take their child to their own doctor or dentist for attention.

The school doctor advises the administrator relative to the immediate dissemination of information to the teachers and parents in the case of an epidemic or other emergency.

The services of a full time school nurse is provided by the School Board. She devotes two days per month to the work in the Rindge School.

Some of the duties of the school nurse are:

To see that each child has a disease census card and health record card.

To carry out inspection of all children, with the school Doctor in the odd numbered grades, followed by notices to parents and by home visits.

To conduct vision and hearing test and carry out necessary follow-up.

To stimulate clinics and assist at all clinics: Dental; T. B.; Eye; Immunization, etc.

To assist in the control of communicable disease through teaching the recognition of early symptoms, the importance of isolation and the value of immunization.

To inspect pupils and take heights and weights and record on Health Record Cards.

To make out monthly report and records.

To show the value of adequate health supervision and facilities for medical aid and assist in securing the correction of defects.

To develop relationships to coordinate school nursing activities with all other health forces of school, home and community and to promote health resources.

To help conduct the pre-school Spring round-up and enrollment of entering pupils, with a complete health history entered on the Health Record Cards, as well as a screening of vision and hearing and general health.

To act as a visiting teacher, the link between home and school.

COMMUNICABLE DISEASE CONTROL

Children who show indications of a communicable disease should remain at home until fully recovered, or until the family doctor has been consulted. Sending the child to school for the Nurse to inspect is very dangerous for the ill child and exposes other children to the infection before the ill child can be returned home to the parents.

The child should not be sent to school with one or more of the symptoms of a communicable disease:

Sneezing; a newly wet running nose; red watery eyes; sore or inflamed throat; cough; headache; vomiting; or malaise. Fever or rash should be looked upon as signs and symptoms of communicable disease.

Children who live long distances from school should be accorded special protection. The close contact involved in transportation of such children and the difficulties involved in returning such children home, if found to be ill, calls for the

closest cooperation between home and school. Parents should keep such children at home if they show any signs of illness. Teachers should be careful to exclude such children from school.

B. HELPING TEACHER'S REPORT

WHO . . . . . .

is your helping teacher and what does he do? This is a natural question which is ably answered in the Laws of New Hampshire Relating to Public Schools. It can be paraphrased as follows:

The helping teacher is defined as a teacher with specific training and experience which will enable her or him to:

1. Give helpful advice, counsel, and assistance to teachers, pupils and parents of a school system as a constructive means of improving the educational growth and development of children.
2. Help solve pupil problems of retardation and maladjustment.
3. Adopt (adapt?) the program of studies to meet the needs of the children and the community.
4. Bring resources outside of the school to classroom teachers, pupils and parents and community.
5. Act as a consultant to the entire staff and community in recognition of the educational needs.

WHAT . . . . . .

are some of the things the helping teacher has been doing since July of this year?

a. Contacting, interviewing and recommending many of the 29 new teachers, principals, supervisors and nurses in the Supervisory Union (42 interviewed.)

b. Developing a Handbook of rules and regulations for all teachers and principals in the Supervisory Union.

c. Preparing a Bulletin for new teachers and monthly newsletters for all teachers offering suggestions for the improvement of instruction and public relations.

d. Working with press representatives and school principals in the attempt to get better and more schools news in the paper.

e. Working directly with teachers in the rooms (240 visits.)

This includes:

1. Supervision
2. Bringing in instructional materials.
3. Helping with problems.

f. Working with principals and groups of teachers to discuss the improvement of courses of study and instruction.

g. Working with teachers who had specific problems in the classroom.

h. Demonstration teaching.

i. Working with teachers in helping to determine those children who have reading difficulties.

j. Working with the guidance directors to help establish a uniform and worthwhile testing system in our schools.

k. Working with child welfare—individual conferences with parents, children and teachers.

l. Attended Conferences on Remedial Reading.

m. Worked on planning color schemes and floor tiles in three towns of the supervisory union where new construction or re-modeling went on.

n. Attended School Board Meetings.

o. Participated in P. T. A. discussion groups.

p. Participated in Supervisory Union Teachers Association in the capacity of President.

q. Worked with Committee of Specialists in examining children under the required age for school entrance.

What are some of the things observed . . . . . .

1. In general there seems to be a splendid professional attitude on the part of principals and teachers to do the best possible job with the resources they have to work with. Many principals and teachers are spending long hours evaluating what is being done and trying to improve it. Many teachers are taking courses to gain a better understanding and to broaden there concepts of teaching.

2. There are some problems which seem to have no special answer at the present time. They are as follows:

a. The retarded child: There are 46 children in the Supervisory Union who could be classified as retarded. These children should be in special classes with a teacher especially trained to teach them things which will help them to become more useful citizens. There is no real provisions made for these children now and I certainly recommend that a study be made to determine what can be done to help these children.

b. Approximately 10% of the children in our schools have what is termed Specific Reading Disability. These children cannot learn to read by the ordinary methods of reading instruction. It is not because they are unintelligent but because they do not have the necessary ability to learn by normal methods of instruction. These children are very often very intelligent children. They need special individual help in learning to read. If these children are to develop properly, they are going to have to learn to read properly. Some consideration should be given to providing a person specifiically trained to work directly with the children in this group. I would recommend, because of the seriousness of this problem, that some action be taken to provide a person qualified to do this work in the different towns of the Supervisory Union.

There are at least 62 known cases in the Supervisory Union of children with average and above average intelligence who are reading at approximately two years

below grade level. I beleive more will be discovered when we secure the results of reading tests yet to be administered in some of our schools. It is reasonable to assume these children do have Specific Reading Disability and need assistance outside of their regular classes in reading. This seems most imperative when one realizes that without skill in reading children cannot make the proper progress in their other subjects.

c. In expanding our two high schools we are employing a larger staff which in some measure provides for a more varied curriculum to take care of the needs of all the boys and girls in the schools. There is need, however for a further study of the curriculum to insure that it is properly co-ordinated in all its departments. This is a natural situation in a period of expansion and while no definite answers have been arrived at yet, the Superintendent, principals and faculties are working on this problem.

The role of the Helping Teacher is a varied and interesting one. The response from school boards, principals, teachers, parents, children and community organizations has been most gratifying.

Respectfully submitted,
ROBERT FILBIN,
Helping Teacher.
